Now for Major Career Payoff
By Mindy McHorse

In poker, the phrase "all in" refers to the moment you bet all your chips on a single hand. Meaning you can win or lose everything in the blink of an eye.

Fortunately, if you're a Barefoot Writer, the risks are minimal — and the payoff can be extraordinary.

Which means you've got nothing to lose if you decide this is the month you're going to step it up, go all in, and accelerate your writing goals.

Our September issue's pack of eye-opening, motivational articles will help. You'll discover

- Multiple ways to turn live events into networking opportunities
- 3 ways to capture your authentic voice
- Why now is the time to say no to traditional publishing and yes to more money as a writer
